Firm Profile

Partners in business

At O'Neill partners we don't just have clients, we have partners in business and this underpins everything that we do.

We work closely with our business partners to achieve their commercial outcomes in the most direct and efficient manner possible. We act for listed corporations, private companies and individuals across a range of industries.

We place our clients at the forefront of everything we do. We take the time to get to know our clients and their businesses and regularly review our work with them. We have developed long term, trusted relationships with our clients and this enables us to deliver real value to them.

We have been serving our clients for over 15 years and what they tell us they value most is our ability to work with them to deliver practical, commercial solutions in the time frames that they require. We understand the law but we also focus on the people and businesses behind it.

We deliver value to our clients by providing advice that is tailored to their specific needs and is underpinned with specialist legal expertise and deep industry knowledge.

Big firm expertise, boutique firm value and service

Our lawyers are amongst the best at what they do, with many having 'big firm' experience and specialist training and expertise. We are able to deliver large firm expertise with the value and service of a specialist boutique firm.

We are clear about what we do well and provide specialist legal services in the following core areas:

- Corporate and commercial
- Dispute resolution and litigation
- Insolvency and reconstruction
- Private clients
- Property and development

If an issue arises for our clients, and we aren't the best lawyers to handle their work, then we have a strong referral and consultant network across Australia and internationally to ensure that our clients' legal requirements are met.

For further information of specific relevance to you and your organisation, please see our capability statements for each of our specialist service areas.
